To Whom It May Concern,

I am honored to write this letter of recommendation for Mr. Thomas Fletcher. I have known Thomas for three years as I have been his teacher for Honors English 10, Advanced Placement Language and Composition 11 and, I am currently his teacher for Advanced Placement Literature and Composition 12.

Thomas is a very motivated student. He challenges himself by taking advanced, rigorous courses, and he performs very well in those classes. It is refreshing to have Thomas in class as he also cares deeply that he learns the material. For instance, in terms of writing, Thomas will always seek recommendations as to how his writing, already of high caliber, could be made better. He is not content to “rest on his laurels” and instead pushes himself as a learner. This is evident within the realm of English as he is a gifted writer when it comes to the traditional essays required in AP courses, but he also seeks opportunities for creative writing and excels in that avenue as well. Thomas has also been recognized, outside of the field of English, at a recent math and science competition where he earned a second place ranking in the field of chemistry.

Thomas balances his challenging workload with being very involved in our school community primarily through his commitment to our school’s music program. Thomas has long been a member of the marching band and performs at a myriad of school functions. Additionally, Thomas is also a member of the wind ensemble and the jazz band, so he is extremely involved musically, which is also evident through him earning high scores with a quartet at both district and state level competitions. Thomas has also joined our school’s chapter of the National Honor Society, and through involvement with that group he performs many acts of service throughout the community.

I am excited for Thomas to have the opportunity to continue his education at the collegiate level. I very strongly suspect that he will become involved in his college community whether that be through the field of music or service opportunities. Moreover, I know that he will very much enjoy and appreciate the ability to continue to challenge himself as a learner at an advanced level.

Sincerely,

Mary Kathryn Turner
